Rating Methodology

SAHA's methodology for rating the degree of compliance with the Principles of Corporate Governance is based upon the CMB's "Corporate Governance Principles" released on January 2014.

The CMB based these principles on the leading work of The World Bank, The Organization of Economic Cooperation and Development (OECD), and the Global Corporate Governance Forum (GCGF) which has been established in cooperation with the representatives of the preceding two organizations and private sector. Experts and representatives from the CMB, Borsa Istanbul and the Turkish Corporate Governance Forum have participated in the committee that was established by the CMB for this purpose. Additionally; many qualified academicians, private sector representatives as well as various professional organizations and NGOs have stated their views and opinions, which were added to the Principles after taking into account country specific issues. Accordingly, these Principles have been established as a product of contributions from all high-level bodies.

Certain applications of the Principles are based on "comply or explain" approach and others are mandatory. However, the explanation concerning the implementation status of the Principles, if not detailed reasoning thereof, conflicts arising from inadequate implementation of these Principles, and explanation on whether there is a plan for change in the Company's governance practices in future should be mentioned in the annual report and disclosed to public.

The Principles consist of four main sections: shareholders, public disclosure and transparency, stakeholders, and the board of directors.

Based on these Principles, the SAHA Corporate Governance Rating methodology features around 330 sub-criteria. During the rating process, each criterion is evaluated on the basis of information provided by the Company officials and disclosed publicly. Some of these criteria can be evaluated by a simple YES/NO answer; others require more detailed analysis and examination.

SAHA assigns ratings between 1 (weakest) and 10 (strongest). In order to obtain a rating of 10, a company should be in full and perfect compliance with the Principles (see Rating Definitions, p.23).

Shareholders: **25%**
Public Disclosure and Transparency: **25%**
Stakeholders: **15%**
Board of Directors: **35%**

To determine the final overall rating, SAHA utilizes its proprietary methodology which consists of sub-section weightings and weightings for the criteria there under. A separate rating is assigned to each one of the main sections as well.

The board of directors established internal control systems which are inclusive of risk management, information systems, and processes by also taking into consideration the views of the committees.

It is declared in the annual report that the board reviews the effectiveness of risk management and internal control systems at least once a year.

The presence, functioning, and effectiveness of internal controls and internal audit are explained in the annual report.

The duties of the chairman of the board of directors and the chief executive/general manager are carried out by different persons.

Chairman of the board and chief executive/general manager's executive powers are separated as per the articles of association.

Defects and damages caused by the board members during their duties have been insured within the holding with an amount exceeding 25% of the capital of the Company. Information about the said policy has been declared to us by the Company.

Analyzing the Company's organization, it is seen that there is no person in the Company who has unlimited authority to make decisions alone and this is considered as positive by us.

4.3. Structure of the Board of Directors:

The Company's board of directors is composed of 9 members and one of them is executive. Among the non-executive members there are 3 independent members who have the ability to execute their duties without being influenced under any circumstances.

The Corporate Governance Committee have prepared a report on the candidates proposed by the board and shareholders, by taking into consideration of whether or not the candidate meets the independency criteria and submitted this assessment as a report to the board for its approval. CMB criteria are complied with in determining independent candidates. Independent candidates for the board of directors have each signed a declaration of independence within the framework of the legislation, articles of association, and the CMB criteria.

Together with Ms. Meral Miryam Molinas, representing Doğu Batı Sanayi Ürünleri İhracat ve İthalat A.Ş., there are 4 female members on the board of directors. Thus the Company

has already met the Corporate Governance Principles' advisory target of minimum 25% female board membership rate.

4.4. Conduct of the Meetings of the Board of Directors:

Board meetings take place with sufficient frequency. Company officials have declared that the board of directors passed 64 resolutions since our last report (November 21, 2016).

Chairman of the board of directors sets the agenda for board meetings in consultation with other members and the CEO/general manager.

Information on the agenda items of the board of directors is made available to the members in sufficient time prior to the meeting date by a coordinated flow of information. Each member is entitled to a single vote.

The meeting and decision quorums have been included in the articles of association of the Company. In addition, board meetings can also be held in a remote access system.

The board members' external duties are subject to certain rules within the Company's internal regulations.

The conduct of the board of directors meetings is also determined in writing in internal regulations of the Company.

Except for independent members, in general the same member is not serving in more than one committee.

The manager responsible for Investor Relations is appointed as a member of the Corporate Governance Committee in terms of compliance with the Communiqué in question. There are no other executive members on the committees.

All necessary resources and support needed to fulfill the tasks of the committees are provided by the board of directors.

Meeting frequency of the committees has been found sufficient by us. The Corporate Governance Committee convened 5 times, and Early Detection of Risk and Audit Committees held 6 meetings each since the date of our last report.

The Corporate Governance Committee is established in order to determine whether or not the corporate governance principles are being fully implemented by the Company, if implementation of some of the principles are not possible, the reason thereof, and assess any conflict of interests arising as a result of lack of implementation of these principles, and present remedial advices to the board of directors. In addition, it oversees the work of the shareholder relations unit.

management systems at least once a year.

The duties of the Nomination and Remuneration Committees are performed by the Corporate Governance Committee. Although the activities of the Corporate Governance Committee on determination of independent candidates are included in the submitted reports, functionality of these committees will continue to be monitored by us.

4.6. Remuneration of the Board of Directors and Senior Management:

The principles of remuneration of board members and senior executives have been documented in writing and submitted to the shareholders as a separate item at the general shareholders' meeting.

A remuneration policy prepared for this purpose can be found on the Company's web site. Stock options or performance based payments are not included in the remuneration package of the independent board members.

It is declared in the Corporate Governance Compliance Report that Akiş GYO does not lend any funds or extend any credits to a member of the board or to senior executives, or grant any personal loans through a third party, or extend any guarantees.

We are convinced that the executives have the required professional qualifications in order to perform the assigned duties and they comply with the legislation, articles of association, and in-house regulations and policies in fulfilling their duties.

There have been no cases where the executives used confidential and non-public Company information in favor of themselves or others. There are no executives who accepted a gift or favor directly or indirectly related to

the Company's affairs, and provided unfair advantage.

Company officials declared that there is an insurance policy on compensation for losses incurred by the Company, and third parties, as a result of not performing the executives' duties duly.
