

## **AKIŞ GAYRİMENKUL YATIRIM ORTAKLIĞI A.Ş. CLIMATE CHANGE AND ENVIRONMENT POLICY**

Climate change and high-speed consumption of natural resources pose important risks for the whole world. These significant environmental risks also have significant effects on the operations of companies. Proactive management of these risks is of great importance for both environmental and operational sustainability.

Considering the approaches and policies of its main shareholder Akkök Holding A.Ş. in the development of its performance related to its environmental applications, Akiş GYO continues its operations in line with nationally and internationally accepted quality systems, invests in environmentally friendly technologies and continuously aims for better performance by monitoring and supervising its environmental performance.

In this context, Akiş GYO undertakes to maintain its activities in an environmentally and socially sensitive manner, to minimize its environmental impacts and to continuously improve its performance in this field. In line with the objective of controlling the direct and indirect effects on the environment, managing these effects with the right strategies and technologies within the scope of annual business plans and continuously improving them; Akiş GYO

- Follows the requirements on the environment and carries out its activities in a way to comply with them,
- Strives to structure the real estates that constitute the investment portfolio under the principle of efficient use of all natural resources, especially energy,
- Continues its efforts to measure and reduce greenhouse gas emissions arising during investment and project development works,
- Works to protect the natural resources of our country and of the world, to use them in the most efficient and effective way and to control and reduce the environmental impacts that occur as a result of its activities and encourages all stakeholders in this regard,
- Carries out studies that will increase the environmental awareness of the society and raise the level of awareness, of employees, customers, suppliers, contractors, and other operational stakeholders, and
- Undertakes to monitor its environmental impacts within the framework of international management standards by continuously improving the environmental management system.

The Corporate Governance Committee is responsible for the follow-up, update and execution of the policy, and the Board of Directors is responsible for its approval and cancellation.

Although Climate Change and Environmental Policy is a part of the Environmental Management System, it shall be reviewed at least once a year under normal conditions and shall be updated if deemed necessary, immediately in case of legislative changes and inappropriate situations or when improvement is required. All updates will be shared with Akiş GYO employees and all other stakeholders on the website.

This policy has been adopted and entered into force by the Board of Directors.
